

SIDE CUT OPTIONS

We work very hard to minimize our tolerance requirements. There will be some cut variations in your pouches due to the imperfect nature of manufacturing. Below are options to minimize the visibility of slight off-cuts on the sides.

CONTINUOUS COLOR EDGE

Include a 2mm edge on each side of the design in a complimentary color.

SHOW UNPRINTED POUCH MATERIAL

Include a 2mm edge on each side of the design with no artwork. This area will show unprinted pouch material. (example with white film)

CONTINUOUS PATTERN

Include a background with a continuous pattern or shape across the edges of each side. This eliminates abrupt edges or slivers of color from one pouch to the next.

DO YOU NEED HELP FORMATTING YOUR ARTWORK?

We offer file formatting services. For more information email graphics@thepkglab.com.
